XVII

2025

SALTA

Simposio Argentino de Polímeros

The Organizing Committee of the **XVII Argentine Symposium on Polymers (SAP 2025)** extends a warm invitation to participate in this event, which will be held in the city of Salta from October 22 to 24, 2025.

SAP 2025 aims to create a scientific forum for the exchange and discussion of current topics in polymer research and development, with the objective of strengthening collaboration between national and international research groups and promoting interaction with the industrial sector, thereby fostering technology transfer and the connection between the academic-scientific and business communities.

INFORMATION

Event Format

The symposium will take place in person at the Council of Surveyors, Engineers, and Related Professions (COPAIPA), located at Zuviria 291 in the city of Salta. During the event, we will feature:

- 5 Plenary Lectures given by distinguished international experts.
- 20 Semi-Plenary Lectures in key areas of polymer research.
- A working group to strengthen Academia-Industry relations.
- Presentations of research in oral and poster formats.

"Héctor Bertorello" Award for Best Doctoral Thesis

As part of SAP 2025, the "Héctor Bertorello" Award for Best Doctoral Thesis in Polymers (sixth edition) will be presented to recognize the best thesis defended between August 2023 and July 2025 in Argentine universities. The finalist theses will be evaluated by a regional jury, and the winning thesis will be selected by a national panel

Thematic Areas

- Chemistry, structure, and properties of polymers: synthesis, simulation, and modification.
- Mechanical properties, rheology, and polymer processing.
- Degradation, aging, recycling, and stabilization of polymers.
- Bio-based and biodegradable polymers: sustainability and circular economy.
- Polymers for biomedical and biotechnological applications.
- Multiphase polymers, polymer blends, nanostructured and nanocomposite polymers.
- Industrial applications and polymer engineering.
- Polymers for packaging and containers.
- Functional and smart polymers.

Additional Information: Categories and registration fees for participants will be published soon.

Logo Design Contest

The Logo Design Contest for the event concluded with the selection of the design presented by *Pharmacist Belén Mezzano*, chosen from numerous high-quality proposals. We congratulate Belén for her work and thank all participants for their commitment and creativity.

Important Dates

Key dates for submitting work are as follows:

- Abstract submission deadline: until April 30, 2025
- Acceptance notification: May 30, 2025
- Deadline for corrected abstracts (if applicable): until June 13, 2025
- Acceptance notification of corrected abstracts: June 27, 2025

The template and submission instructions are available on the event website: <https://sap2025.ing.unsa.edu.ar>
